

669 Hakaka Place

Immerse Yourself in Grandeur & Distinction

Capture the essence of private resort living and entertaining in this new and timeless island residence. Situated at the highest point in Kahala, this home offers 360 degree ocean, Diamond Head, Kahala and Ko'olau mountain views. Imagine coming home to your own lush, tropical garden of falling waters, lagoon swimming pool with beach access and exotic pili grass cabana with water scuppers, sheltering you as you soak in your very own spa. Looking back over the reflective waters of the pool, you see the deep outdoor lanais and generous spaces of the living areas. Perfect for entertaining, the free flowing open floorplan is both inviting and functional for your family's contemporary lifestyle. Treat yourself to a private outdoor Bali-style shower after your soak. The gourmet kitchen has the latest appliances including double dishwashers, Sub-Zero Refrigerator and warming drawers and a deep walk-in pantry. The Dining Room and outdoor eating area are just steps away or find refuge in the elegant sky-lighted Living Room. Admidst the kitchen and lofty family room, an innovative "surfboard" shaped bar provides refreshments and an additional perch for casual dining, watching the game or chatting with the cook. The approximately 6,000 s.f. interior floor plan with five ensuite bedrooms is generously proportioned. Natural materials featured throughout -- richly veined Koala wood flooring, Anigre wood cabinets, Travertine marble, and silky 100% wool carpeting -- set a warm palette suitable for any style decor. This 5 bedroom, 5.5 bath home, office and Balinese cabana epitomizes the contemporary Hawaii lifestyle of casual and elegant indoor/outdoor living.
