New sandy beachfront home is an outer-island vacation right in the backyard of Oahu! A hidden secret beach, the result of thousands of years of geology and nature conspiring to produce a pure sandy channel over 1,500 yards wide as one of the few breaks in the barrier reef that surrounds Oahu, from Hanauma Bay to Haleiwa. This unique natural feature formed right in front of the property results in boogie boarding and body surfing waves and leisurely swimming. Wide sandy swimmable beach | Two island-style outside showers | Mapped agricultural trails to island vistas and waterfall hike across the street (Adjacent 1/2 acre beachfront lot \$3.5m)
